MEDIA ADVISORY

Delegates at the Australian Education Union's Annual Federal Conference in Melbourne will today determine the union's national response to damaging school league tables.

A recommendation will be put to the Conference that teachers not cooperate with the implementation of national NAPLAN tests in schools unless satisfactory measures are introduced to stop the further creation and publication of league tables.

AEU Federal President Angelo Gavrielatos said the union was concerned that nothing was being done to prevent the creation and publication of misleading and damaging league tables using NAPLAN results which will be posted online by the Federal Government next week.

WHAT: AEU Federal Conference debate on league tables
